1.	Which Data Science category enables you to present data in the form of charts, plots, and maps?	1/1 point
	○ Model Building	
	O Data Management	
	O Data Integration and Transformation	
	Data Visualization	
	Correct Correct! Data visualization is the graphical representation of data and information. You can use visualization to represent data in charts, plots, maps, animations, and so forth.	
2.	Which Data Science category uses tools like Fiddler to track the performance of deployed models in a production environment? Model Monitoring Data Integration and Transformation	1/1 point
	O Data Visualization	
	Correct Correct. Model monitoring uses tools like Fiddler to track the performance of deployed models in a production environment.	
,		
5.	Which open-source tool is used for model deployment?	1/1 point
	○ Git	
	○ wysQL	
	Apache PredictionIO	
	○ ModelDB	
	⊙ Correct	
	Correct. Apache PredictionIO is used for model deployment.	
1.	Which open-source tool is used to version data and annotate the data with metadata?	1/1 point
		-,
	Apache AirFlow	
	Apache Atlas	
	Kubernetes	
	O Hue	
	 Correct Correct! Apache Atlas is used to version data and annotate the data with metadata. 	
5. \	Which feature differentiates Apache Zeppelin from Jupyter Notebooks?	1/1 point
	Plotting capability	
	Ability to open different types of files	
	Ability to unify programming, execution, and debugging into one tool	
	Ability to unify documentation and code in a single document	
	 Correct Correct! The key differentiator is the integrated plotting capability in Zeppelin, while Jupyter Notebooks uses external libraries. 	

	Apache Flink	
	O Apache Spark	
	Zeppelin	
	KNIME	
	 Correct Correct. Apache Flink mainly focus on processing real-time data streams. 	
7.	Which Business Intelligence commercial tool creates live dashboards?	1/1 point
	Tableau	
	○ SPSS Modeler	
	○ Talend	
	○ Informatica	
	 Correct Correct! Tableau is a Business Intelligence tool that can create reports and live dashboards. 	
3.	Which commercial tool will help you build a machine-learning model?	1/1 point
	○ Microsoft SQL Server	
	○ InfoSphere DataStage	
	O IBM Cognos Analytics	
	SPSS Modeler	
	○ Correct Correct! SPSS Modeler is a data mining product that will help you build a machine learning model.	
Э.	Which fully integrated visual tool is not deployed by a cloud service provider and needs to be downloaded and installed?	1/1 point
	H20 Driverless AI	
	○ Watson Studio	
	Microsoft Azure Machine Learning	
	○ Watson OpenScale	
	Correct Correct. H2O Driverless AI is a product that you download and install.	
10. Which of the following tool is a part of the IBM Watson Studio?		
		1, 1 po
	O DataMeer Cloudant	
	O Informatica	
	Data Refinery	
	⊙ Correct	
	Correct. Data Refinery is part of IBM Watson Studio.	

1/1 point

6. Which of the following tool is used as a stream processing image?
